Nigeria (UTC+1) | Open to Remote

SUMMARY

Brand strategist and visual identity designer with a computer science background and experience building identity systems for startups, nonprofits, technology products, and multi-brand organisations. I work from research into positioning, then translate that thinking into logos, typography, colour systems, campaigns, and brand guidelines that teams can actually use. My work is especially suited to brands that need clarity, consistency, and a visual identity strong enough to scale across product, marketing, and investor-facing materials.

SKILLS

Brand: Identity Systems, Brand Architecture, Brand Positioning, Visual Governance, Competitive Research, Brand Guidelines, Investor-Ready Brand Materials, Brand Workshop Support

Design: Logo Systems, Typography, Colour Theory, Iconography, Illustration Direction, Motion Design, Campaign Asset Development, Layout Design

Tools: Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Figma, Slack, Notion

EXPERIENCE

Senior Brand Designer (Independent)

Remote 2025 – Present

Independent brand practice serving early-stage companies, founders, and growth-stage brands across Nigeria and international markets.

- Lead brand identity projects from research and positioning through to visual identity, campaign assets, and final handoff.
- Build identity systems that include logos, typography, colour palettes, visual rules, and practical usage guidance for client teams.
- Work with clients across the UK, Belgium, Ukraine, and Nigeria, managing communication and delivery through Slack and Notion.
- Create brand systems that clients can continue using after handoff without needing constant design support.
- Support clients with both full identity development and focused brand direction, depending on the stage and needs of the business.

Brand Lead

K33P | *Remote* Mar 2025 – Mar 2026

K33P is a security technology platform built around protecting cryptocurrency seed phrases.

- Built the brand identity from the ground up, including the logomark, wordmark, colour system, iconography, illustration direction, and visual rules.
- Shifted the brand away from generic fear-led Web3 security messaging and developed a clearer direction around trust, recovery, and the emotional cost of digital loss.
- Created brand assets for product, marketing, partnerships, hackathon submissions, and investor-facing materials.
- Produced a brand governance document to help the team maintain visual consistency across product UI, marketing, partnerships, and pitch materials.
- Supported launch and competition materials for three hackathon placements, including one win and one first runner-up finish.

Brand Designer

Centenum Tech | Remote Nov 2024 – Oct 2025

Centenum is a multi-brand technology group with subsidiaries across health tech, femtech, real estate, and financial services.

- Built visual identity systems for four product brands within the group, covering digital assets, marketing materials, and brand guidelines.
- Helped maintain consistent visual output across different industries while allowing each brand to keep its own identity.
- Developed reusable design frameworks for recurring campaign assets, reducing the time needed to produce new materials.
- Worked directly with product and marketing teams to make sure brand output supported each subsidiary's business goals.
- Designed assets across multiple channels, including social media, presentations, product communication, and campaign materials.

Brand Designer

Fowoya Studio | Contract Sep – Nov 2024

Fowoya is a brand and creative agency working primarily with startups and founders.

- Delivered identity systems, brand guidelines, and visual assets for growth-stage clients.
- Worked within the agency's strategic direction while leading design execution from brief to final handoff.
- Identified gaps in briefs before client presentations, helping improve the quality of the final work and reduce revision rounds.
- Produced modular logo systems, typographic frameworks, and implementation guidelines that clients could use independently.
- Collaborated with the studio team to turn early brand direction into polished visual identity work.

Brand Designer

DreamCode Africa Feb – Sep 2024

DreamCode Africa is a Nigerian nonprofit equipping public secondary school students with tech and life skills through hands-on education.

- Led brand and design across the organisation's communications, social campaigns, visual identity, and internal design systems.
- Created design assets for the organisation's full calendar of activities, including campaigns, events, and educational programmes.
- Maintained visual consistency across a high volume of campaign output.
- Designed for a youth audience while keeping the brand clear, warm, and mission-driven.
- Applied previous experience in nonprofit design to create materials that felt accessible without losing seriousness.

Brand Designer (Independent)

Remote 2022 – 2024

Early independent practice focused on brand identity and visual communication work for clients in Nigeria and international markets.

- Designed identity systems, campaign materials, and visual direction for clients across the UK, Europe, and Nigeria.
- Developed a reusable research and brief framework to guide brand identity projects from discovery to delivery.
- Maintained on-time delivery across client engagements, with several clients returning for follow-on work.
- Used this period to test and refine a research-led design process across different industries and client sizes.
- Built early experience translating unclear briefs into structured visual direction.

Graphic Designer

Dynaminds Entertainment | Nigeria 2021 – 2022

Dynaminds Entertainment is a Nigerian event and entertainment company organising large-scale social experiences, including talent shows, picnics, and live events.

- Designed visual materials across event campaigns, brand promotions, layout systems, and social media communication.

- Worked across multiple event formats, adapting the visual language to suit each campaign while keeping the brand recognisable.
- Supported brand identity campaigns that improved market visibility and contributed to stronger sales performance.
- Built practical experience designing for fast-moving public-facing campaigns with tight timelines.

Logo Designer

MVIMKotlin | United Kingdom 2020

MVIMKotlin is an open-source Kotlin multiplatform framework maintained on GitHub.

- Designed a logo system for a developer-facing open-source product.
- Translated the product's technical nature into a visual mark that could work across GitHub, documentation, and digital platforms.
- Worked directly with the client to align the visual identity with the product's positioning in the developer community.

Graphic Designer

Teens Voice-Aid Foundation | Nigeria 2019 – 2021

Teens Voice-Aid Foundation is a Nigerian youth-focused nonprofit running advocacy campaigns and community programmes.

- Built the organisation's brand guidelines from scratch and led visual communication across two years of campaigns.
- Produced campaign materials, social media assets, and community-facing designs for advocacy and youth engagement.
- Supported a rebrand that contributed to stronger recognition and improved community participation.
- Developed early experience designing for mission-driven work, where clarity, trust, and emotional connection matter as much as aesthetics.

EDUCATION

Higher National Diploma (HND), Computer Science*Institute of Management & Technology, Enugu, Nigeria*(5-year post-secondary technical programme inclusive of one year of industry placement, broadly equivalent to a bachelor's degree)

National Ordinary Diploma (OND), Computer Science*Petroleum Training Institute, Effurun, Nigeria*
